

WE ARE REVOLUTIONISING FINANCIAL INFORMATION SHARING
DO YOU WANT TO BE A PART OF IT?

The Opportunity

Role: UI/UX Engineer

What that means: You will own and implement the parts of the platform that our customers and clients directly engage with.

The Company

At Armalytix, our mission is to build extraordinary processes to transform how firms request, prepare and process clients' financial information.

We value ability and dedication, driven by openness, collaboration and well-being. You will be a key part of the team helping to reshape and simplify the financial landscape for people - one report at a time.

Time is precious, dealing with financial forms isn't.

Your Mission

You will own and implement the parts of the platform that our customers and clients directly engage with. Making our applications easy to use and intuitive for all is critical to the success of our business.

A bit about you

- You will be an accomplished developer with expertise in Java Script frameworks such as Vue.js and React.
- You will be experienced in developing and deploying applications for use at scale.
- You will have experience of interacting with RESTful APIs.
- You will have a passion for delivering clean and responsive client facing applications that your customers enjoy using.
- You have an eye for design and how to engage customers in a product.
- You will be able to help shape the technical direction of the company from a UI/UX perspective.
- You enjoying interacting with clients, customers and partners to understand what they need from an application.
- You understand the customer and put their needs at the heart of the product.

What it will take

- You understand security standards and the key risks in delivering consumer facing software.

- You have experience of Docker/Kubernetes and cloud-based infrastructure services.
- You enjoy working in a start-up where you can shape, influence and develop engineering strategy.
- You have the ambition to take on larger roles as the engineering team continues to grow.
- You're a great communicator who's at home interacting with clients and partners at any level.
