

WE ARE REVOLUTIONISING FINANCIAL INFORMATION SHARING

DO YOU WANT TO BE A PART OF IT?

Job title: DevOps/Platform Engineer

The role

This role delivers the development and operation of the Armalytix platform infrastructure. This role is involved in delivering a scalable and intuitive platform to reshape and simplify the financial landscape. The role collaborates with colleagues as part of a cross-disciplinary technology team.

The role will be instrumental in building extraordinary processes to transform how firms request, prepare and process clients' information.

The role reports to the Chief Technology Officer.

Key Duties and Responsibilities

- Develop and maintain the cloud infrastructure and the use of Terraform / IAC (AWS)
- Manage and administer the Kubernetes-based ecosystem.
- Design and implement build, deployment, and configuration management.
- Test implemented designs.
- Build and test automation tools for infrastructure provisioning.
- Handle code deployments in all environments.
- Monitor metrics and develop ways to improve.
- Innovate new ideas and ways to improve development delivery.
- Diagnose, troubleshoot, and engineer solutions to operations issues.
- Build, maintain, and monitor configuration standards.
- Conduct cloud / infrastructure security.
- Collaborate with the cross-disciplinary technology team.
- Communicate with key stakeholders.

You

You will be passionate about developing scalable, performant architecture and software. You will be excited by the challenge of enhancing the development and operation of our cloud infrastructure to drive change and improvement.

Experience Required

- Able to demonstrate experience within a similar role.
- AWS or experience with other cloud providers.
- Experience with Kubernetes container technology.
- Familiar with Istio, Gloo, the Hashicorp suite, Prometheus and Grafana.
- Knowledge of cloud / infrastructure security.
- Delivering an "always-on" service capable of scaling and meeting growing business demands.

Skills Required

- A committed 'can-do' positive attitude with the ability to integrate and work as a member of a team.
- Able to demonstrate strong diagnostic skills and workable resolutions.

- Self-starter with the ability to work with a minimum of supervision.
- A keen eye for detail.
- Excellent communication and interpersonal skills.
- Self-motivated, able to demonstrate initiative, and accept responsibility.

Company Overview - <https://armalytix.com/>

At Armalytix, our mission is to build extraordinary processes to transform how firms request, prepare and process clients' financial information.

We value ability and dedication, driven by openness, collaboration and well-being. You will be a key part of the team helping to reshape and simplify the financial landscape for people - one check at a time.

We build digital checks that deliver, enabling a future free from forms.

Our story so far....

We came together from the world of finance to create a better way of doing things and empower a movement of successful professionals to ignite their businesses. With the advent of Open Banking, we saw the world had changed and firms were using yesterday's technology to solve today's problems. That will not last.

We are powering up firms to future-proof their business, create exceptional client experiences and do away with the slow and complicated forms that do not serve them or their clients.

The future is here, the time is now.

What we offer

Salary: £80,000.00 flexible dependant on experience

Benefits: Flexible working environment, private health care, pension, EMI share options scheme (as part of overall compensation)

Location: This is a Hybrid role. Ideally once a week in the office located in London.

We're a start-up with strong financial backing. We understand the questions and problems that we're trying to solve, but we don't know all the answers. We are looking for self-starters that can help us find the right solutions to help us grow and develop our business. Contributing ideas, having an opinion on what 'good' should look like, and being willing and able to learn and adapt are qualities that we value.
