

WE ARE REVOLUTIONISING FINANCIAL INFORMATION SHARING
DO YOU WANT TO BE A PART OF IT?

The Opportunity

Role: DevOps Engineer

What that means: Development and Operation of the Armalytix platform. Supporting customers, clients and partners in pre and post sales interactions.

The Company

At Armalytix, our mission is to build extraordinary processes to transform how firms request, prepare and process clients' financial information.

We value ability and dedication, driven by openness, collaboration and well-being. You will be a key part of the team helping to reshape and simplify the financial landscape for people - one report at a time.

Time is precious, dealing with financial forms isn't.

Your Mission

A key member of the Armalytix team, you will be involved in the development and operation of the Armalytix platform. You will interact directly with customers and clients. Using a data driven approach you will help us to deliver a fast, scalable and intuitive platform that delivers on the Company's mission.

A bit about you

- You will be an experienced developer with a track record of software development using Java, Python and Unix shell scripting tools.
- You will be proficient in SQL and database technologies.
- You will be familiar with Docker/Kubernetes and cloud-based infrastructure.
- You will have experience of RESTful APIs.
- You enjoy problem solving. You are data driven and have a passion for delivering continuous improvement across the platform.
- You enjoy interacting with clients, customers and staff across the company.

What it will take

- You understand security and the risks in delivering consumer facing software.
- You are able to understand an end to end application eco-system, how components and services interact with each other.
- You are familiar with Open Banking.
- You can diagnose, troubleshoot and engineer solutions to operational issues.

- You enjoy working in a start-up where your contribution and impact makes all the difference.
- You have the ambition to take on larger roles as the company continues to grow.
- You're a great communicator who's at home interacting with clients and partners at any level.
